Subject: Dimock Update

Community Outreach /Communications

- The CIC and OSC team completed one (1) outstanding home well survey today.
- The fact sheet distribution is complete.
- The CIC is arranging to have photographs taken of EPA's sampling activities. The photos will be posted on EPA's website to help document and educate the public about EPA's work.
- The CIC has been tasked to write a Frequently Asked Questions fact sheet to post on the website and to distribute to all of homes being sampled. The purpose of the FAQ is to address, in advance of our sampling appointments, the frequently asked questions we are getting from the residents during our sampling activities.
- Tomorrow, the CIC will be on site for residential sampling at the [redacted] home. This is the resident who wrote us an e-mail expressing concerns about our activities and asking for information about our sampling plan. The CIC is working with the IC on a written response to that e-mail. The OSC also plans to answer [redacted] questions in person during the sampling event.
